

UDOT ROTATIONAL ENGINEER

BIO: Scott Esplin

Spring 2012

Where did you attend college and when did you graduate?

Brigham Young University (Bachelors in April 2011, Masters will be in June 2012)

When did you join the rotational program at UDOT?

May 2011

What rotations have you completed?

Construction and Design

Please name a few of the projects you've been involved with and some of the skills or knowledge you've gained.

Mountain View Corridor – 2100 North. I learned a lot about materials testing (during over 90 production days of asphalt)

What experience has challenged you the most?

Coming up with designs for things that I didn't even know existed

What are some of the advantages of the UDOT Rotational Program?

The opportunities for experience are the biggest advantage by far.

What are some of your career goals?

I want to gain a broad background in engineering through the rotational program and then find an area of expertise and transition from production work to leadership responsibilities.

Do you know your next placement or employment situation?

I'm moving back to construction for the summer

Who are some of the people at UDOT who have provided guidance or assistance?

Matt Parker - Resident Engineer

Kurtis Park – Construction Tech 4
